March 1, 2006

SUBJECT: Justification for Rural Development Printing Services

TO: National Office Officials

Due to recent budget constraints, the Rural Development printing budget has been significantly reduced for Fiscal Year 2006. As a result of this reduction in funds, Rural Development must now practice more discretion with regards to which jobs are printed and which are not. To assist us in making this determination, we are now requiring a written justification with all printing requests. Justifications must be signed by a Division Director or above. Any printing requests submitted without a justification will automatically be returned.

For further information, please contact Renita Bolden, Regulations and Paperwork Management Branch, on 202-692-0035 or by e-mail at [renita.bolden@wdc.usda.gov](mailto:renita.bolden@wdc.usda.gov).

National Office Officials shall notify other personnel as appropriate.

March 7, 2006

SUBJECT: Accuracy, Completeness, and Timeliness of Program Data Entered Into Guaranteed Loan System

TO: Rural Development State Directors

ATTN: Business Program Directors

The Guaranteed Loan System (GLS) is our management and accounting tool for various business and cooperative programs. Information from this system is used for multiple management and accounting reporting purposes, including submission of performance measurement data to departmental leadership and Congress.

Congress, as well as the Office of Management and Budget and others, has called for a strengthened reporting system and better measures of the affects that our programs have in rural areas. As a result, Rural Development has a new continuous measurement system, the Socio-Economic Benefits Assessment System (SEBAS). At this time, SEBAS is being implemented for only business and cooperative programs. Consideration for expanded use will be made once SEBAS is tested for business and cooperative programs. SEBAS will rely on GLS data for accurate input measurements to compute the overall economic benefits of our programs in each rural county. The importance of complete, accurate, and timely input of intermediary and ultimate recipient (UR) data into GLS cannot be overstated. It is imperative that beginning in March 2006, GLS data be reviewed for accuracy and completeness and going forward data are input correctly, completely, and timely. These steps will allow Rural Development to improve reporting to illustrate full impact and continue to justify funding requests. Improvement in the data integrity will provide better measurement of program activity, easier management of daily tasks in State and Program Offices, and better reporting via GLS and SEBAS.

A brief explanation and description of SEBAS is provided on Rural Development's intra-net Web site. It is expected that SEBAS will begin to provide reports in the next few months.

EXPIRATION DATE:  
March 31, 2007

FILING INSTRUCTIONS:  
Community/Business Programs

In Phase I, SEBAS will use GLS data together with computations based on North American Industry Classification System (NAICS) codes to compute economic impact in rural counties that the Agency has not previously been able to report. Over time, some NAICS code metrics will be replaced with GLS data, and then the integrity of GLS data will be even more critical. Improved accuracy and completeness of data in GLS will result in more meaningful reports that we send to the Department and others. SEBAS implementation will be addressed in segments with business and cooperative programs being the first. We are now asking that you assist with Phase I of the implementation of SEBAS as follows:

For all obligated and closed business and cooperative loans and grants:

1. The NAICS codes for all borrowers, grantees, and where appropriate, ultimate recipients, must be entered into the GLS system. Generic NAICS codes should not be used. If generic or proxy codes have been previously entered in GLS, please make sure they are changed now.

Each NAICS code should be as precise as possible. When funding is provided to a nonprofit or public body (e.g. governmental body, educational institution, social service agency, Indian tribal group), the appropriate NAICS code may require looking in different series. For instance, 61 is the Educational Series and 91 and 92 are both Public Administration series. There are numerous Web sites that are useful. In all cases, please find the code that most closely describes the nature of the recipient organization. Please note that a link to the NAICS codes is provided in GLS. If you are unable to determine an appropriate NAICS code, please contact the appropriate business or cooperative program section.

Any time a loan or grant is provided for revolving loan fund purposes, both the direct recipient (intermediary) and the UR information must be entered into GLS. As discussed above, use the most appropriate code for the intermediary. Then, as information is provided about the UR by the intermediary, enter the NAICS code into the GLS for each UR, as well as the associated loan amount and other required information.

2. Leveraged funding is a critical element in most of our programs. Anytime leveraged funding is used for a project in conjunction with Rural Development program funding, the sources of the leveraged funding must be tracked. The GLS BP Facility/Project View screen tracks other sources of funds. Please ensure that this screen is completed accurately and in a timely manner.
3. The Form RD 1951-4, Report of IRP/RDLF Lending Activity, page 3 consists of the same information as the UR screen in GLS. This form is currently used only for Intermediary Relending Program (IRP) loans. The intermediary is required to report on each UR who has an outstanding loan. This includes initial and revolved loans from the fund.

Also, the purpose of the GLS UR screen is to report all URs for any loan or grant that is a revolving loan fund. Therefore, please begin to report into GLS and update all revolving loans, previously made, regardless of the program [Rural Business Enterprise Grant (RBEG) and Rural Economic Development Loan and Grant (REDLG)] with UR loan activity, including other funding sources. Effective the date of this unnumbered letter, reporting will include the initial recipients and those receiving revolved funds.

Please note that information should be collected for both the initial UR and subsequent URs that received revolving funds.

4. Job information must be accurate. The proposed numbers of jobs created and saved are entered on the Facility/Project Maintenance (FPM) screen. These jobs must be verified after the loan or grant is closed. Verified jobs must be input using the Facility Job Information (FJI) screen. Do not change proposed job figures on the FPM screen when verifying the jobs; use the FJI screen.

For URs, the job count at the top of the page estimates proposed jobs created and saved. These jobs must be verified either at a site visit to the intermediary or the ultimate recipient. The verified jobs are to be recorded at the bottom of the form. The jobs created and/or saved for the Value-Added Producer Grant and Rural Cooperative Development Grant programs must also be tracked in GLS on the FPM screen and then verified on the Facility Job Tracking screen.

5. We ask that the State Director certifies a good faith effort has been made to correct GLS data and steps have been initiated so that the integrity of GLS data is reviewed and improved continuously.

The following reports should be generated to review GLS for accuracy and completeness of information:

1. GLSR006, Detail of Obligations with Job Information.
2. GLSR016A, Detail of Joint Funding.

There is no one report that will identify all missing data elements needed by the SEBAS model. The National Office is working on the development of a BRIO Insight Report to identify missing ultimate recipient data.

A conference call to discuss these issues on Wednesday, March 8, 2006, are as follows:

1. The Eastern region will be conducted in the morning and the Western region will be in the afternoon.
2. An agenda will be forthcoming and include specific times and States.
3. Suggested participants will be Program Directors and technicians.
4. The discussion will allow time for questions and answers.

The accuracy of data in the GLS affects numerous reports. It will affect the success of SEBAS and the future and success of Rural Development Business and Cooperative programs. We will continue to provide updates as the SEBAS project moves forward.

The completeness of the information in GLS will be monitored by each program area. A certification from each State Director that processes have been put in place to improve the accuracy, timeliness, and completeness of GLS data, must be provided to Elsie Parker no later than the close of business on March 21, 2006. This can be sent by email or fax (202) 690-0097. A confirmation of receipt will be provided. We appreciate your continued cooperation in this effort. If you have any questions concerning GLS, please contact William Smith at (202) 205-0903 or Diane Berger at (202) 260-1508.

SUBJECT: Accuracy, Completeness, and Timeliness of Program Data Entered Into the  
Guaranteed Loan System

TO: Jackie Gleason  
Acting Administrator  
Business and Cooperative Programs

ATTN: Elsie Parker

This certifies that I have insured that for the (state) \_\_\_\_\_ Rural Development State Office, processes have been put into place to review and correct data in Guaranteed Loan System (GLS) for accuracy and completeness as requested on March 8, 2006. Steps have been initiated so that the integrity of GLS data is reviewed and improved on a continuing basis.

Specifically, the North American Industry Classification System codes, job information, and leveraging data are being and will continue to be reviewed, corrected, and updated as necessary. This includes gathering and reporting ultimate recipient information from all intermediary organizations operating revolving loan programs. I have also put in place a review process to insure that GLS data reflects current, accurate, and complete information.

Rural Development State Director

\_\_\_\_\_  
Date

March 7, 2006

SUBJECT: Renewable Energy Systems and Energy Efficiency Improvements Grant  
and Guaranteed Loan Program – Processing Deadlines and Request for National Office  
Funding Consideration

TO: State Directors, Rural Development

ATTN: Rural Energy Coordinators

The purpose of this Unnumbered Letter is to clarify the process and provide guidance regarding requests for funding consideration from the Renewable Energy Systems and Energy Efficiency Improvements Grant and Guaranteed Loan Program (Section 9006) for fiscal year (FY) 2006.

Applicable to all 9006 guaranteed loan and grant funding requests submitted to the National Office, and in accordance with RD Instructions 1940–G, environmental assessments must be completed prior to submission to the National Office. For guaranteed loan requests within the state's approval authority, the environmental assessment must be completed prior to obligation.

**Section 9006 Grant Funds Request**

Applications for grant funds must be submitted to the State Office postmarked no later than May 12, 2006. Because all funds are retained in the National Office, applications must be received in the National Office from State Offices **by July 3, 2006**. Please allow sufficient time for mail delivery.

In order to ensure effective tracking of funding requests, packages must be sent by Federal Express. For each package sent, an email must also be sent to Lisa Siesennop at [Lisa.Siesennop@wdc.usda.gov](mailto:Lisa.Siesennop@wdc.usda.gov), with a copy to Joseph Ben-Israel at [Joseph.BenIsrael@wdc.usda.gov](mailto:Joseph.BenIsrael@wdc.usda.gov), indicating the name of the applicant, the date the package was sent, the Federal Express tracking number, the project type (renewable energy or energy efficiency improvement), and the amount of the request.

EXPIRATION DATE:  
February 28, 2007

FILING INSTRUCTIONS:  
Community/Business Programs

All funding packages submitted to the National Office, including the project summary and priority score sheet, will be reviewed by a Second Tier Review Committee for accuracy and consistency. The Second Tier Review will occur the week of July 10, 2006.

To expedite the internal review and selection of the applications by the Committee, requests for Section 9006 Grant Program funding are to include the following:

1. The priority score sheet generated from the Interim Tracking System, with sufficient supporting documentation tabbed and numbered for each criteria, to include all calculations for each scoring criteria in accordance with RD Instruction 4280-B, Appendix C. Members of the Second Tier Review Committee will only consider awarding points when properly organized supporting documentation and fully understandable calculations are provided.
2. A copy of the executed Project Summary signed by the State Rural Energy Coordinator and approval official with sufficient documentation to support the findings of the recommendation. For ease of locating information, each criteria containing supporting information should be tabbed, numbered, and attached to the Project Summary.
3. A copy of the Legislative and Public Affairs Staff (LAPAS) Project Information Sheet generated from the Interim Tracking System. In order to expedite the announcement of the awards, describe in detail the scope of the project, purpose of grant funds, amount of energy to be generated and/or saved, jobs anticipated to be created or saved, and the impact and benefits to the rural economy, environment, and community.
4. A copy of the results of the Department of Energy's (DOE) technical review generated from the Interim Tracking System. Technical reviews must be completed for all renewable energy systems and energy efficiency improvement applications.

#### **Section 9006 Guaranteed Loan Funds Request**

Applications for the Section 9006 Guaranteed Loan Program will be processed by the State Office in accordance with RD Instruction 4280-B. All funds are retained in the National Office. Funds will be allocated on an ongoing basis to States from the National Office Reserve for projects that best meet Agency priorities from funds available at the time of the request.

All guaranteed loan funds must be obligated by August 1, 2006. Any guaranteed loans that exceed the State's delegation authority must be received in the National Office **by June 30, 2006**. Please allow sufficient time for mail delivery.

For funding requests within the State's approval authority, the State Director or designee may request funds from the National Office reserve by submitting a copy of the priority score sheet, with supporting documentation, the LAPAS Project Information Sheet, and a copy of the results of DOE's technical review. These documents must be submitted

via email to Lisa Siesennop at [Lisa.Siesennop@wdc.usda.gov](mailto:Lisa.Siesennop@wdc.usda.gov). Please copy Joseph Ben-Israel at [Joseph.BenIsrael@wdc.usda.gov](mailto:Joseph.BenIsrael@wdc.usda.gov).

For guaranteed loans that exceed the State's delegation of authority, the State Office will be required to submit the complete application to the National Office for review and funding consideration. In order to ensure effective tracking of funding requests, packages must be sent by Federal Express. In addition, an email must be sent to Lisa Siesennop at [Lisa.Siesennop@wdc.usda.gov](mailto:Lisa.Siesennop@wdc.usda.gov) with a copy to Joseph Ben-Israel at [Joseph.BenIsrael@wdc.usda.gov](mailto:Joseph.BenIsrael@wdc.usda.gov). The email must include the name of the applicant, the date the package was sent, the Federal Express tracking number, the project type (renewable energy or energy efficiency improvement), and the amount of the request.

Upon notification of loan approval, the State Office will be expected to submit RD Form 1940-3 "Request for Obligation of Funds Guaranteed Loans" to the National Office.

#### **Section 9006 Combination Guaranteed Loan and Grant Package Funds Request**

All combination guaranteed loan and grant applications will be considered through a competitive process on a monthly selection basis. Requests received by the National Office by the 1<sup>st</sup> of each month will be processed and States notified. The Agency will collect all combination packages submitted in any given month and score the grant portion under a monthly competition. All combination guaranteed loan and grant applications must be received in the National Office **by June 30, 2006**. Please allow sufficient time for mail delivery.

Those packages for which the grant portion is deemed acceptable, including demonstrated financial needs, will be considered for guaranteed loan funding. This method will ensure that no loan is approved without the grant leveraging it needs, and minimize delays on the loan portion of application decisions.

In order to ensure effective tracking of funding requests, packages must be sent by Federal Express. In addition, an email must be sent to Lisa Siesennop at [Lisa.Siesennop@wdc.usda.gov](mailto:Lisa.Siesennop@wdc.usda.gov). Please copy Joseph Ben-Israel at [Joseph.BenIsrael@wdc.usda.gov](mailto:Joseph.BenIsrael@wdc.usda.gov). The email must include the name of the applicant, the date the package was sent, the Federal Express tracking number, the project type (renewable energy or energy efficiency improvement), and the amount of the request.

Each portion of the combination package (grant and guaranteed loan) should follow the supporting documentation submission requirements as outlined in the previous sections of this Unnumbered Letter.

Upon notification of loan approval, the State Office will be expected to submit RD Form 1940-3 "Request for Obligation of Funds Guaranteed Loans" to the National Office. State Offices should attach a note to the form indicating that the request is for part of an approved combination package.

If you have questions concerning the content of this unnumbered letter, please contact Lisa Siesennop, Specialty Lenders Division Processing Branch at (202) 690-3810.

JACKIE J. GLEASON  
Acting Administrator  
Business and Cooperative Programs

March 7, 2006

TO: State Directors  
Rural Development

ATTN: Community Programs Directors

FROM: Russell T. Davis (*Signed by Russell T. Davis*)  
Administrator  
Housing and Community Facilities Programs

SUBJECT: Eligible Loan Purpose  
Community Facilities Direct Loan and Grant Programs

The purpose of this unnumbered letter is to provide guidance on eligible uses of Community Facilities (CF) Direct Loan and Grant funds.

CF Direct Loan and Grants funds may be used construct, enlarge, or improve community facilities for health care, public safety, and community and public services. This may include the purchase of equipment required for a facility's operation. However, loans for recreational purposes are not eligible under the CF Direct Loan or Grant programs. There may be circumstances where the proposed project may have recreational aspects. For example: (1) the applicant is a school requesting funds to add a gymnasium or a ball field as part of the educational curriculum; or, (2) a hospital wishes to build a swimming pool to be used for physical therapy. In these cases, the purpose of funds would not be for recreational purposes but for education or health care projects.

When entering information in the Guaranteed Loan System (GLS), the North American Industrial Classification System (NAICS) code should clearly identify the major purpose of the project. **The NAICS code should not reflect a recreation purpose for any CF Direct Loans or Grants.** Proper coding of the projects will ensure we are in compliance with RD Instructions 1942-A and 3570-B.

For question, please contact Yoonie MacDonald, Deputy Director at 202-720-1501.

EXPIRATION DATE:  
February 28, 2007

FILING INSTRUCTION:  
Community/Business Programs

March 9, 2006

SUBJECT: Transit Program

TO: Rural Development Employees

The purpose of this memorandum is to remind employees to adhere to guidelines and regulations when participating in the Transit Benefit Program. Rural Development uses Departmental Regulation (DR) 4080-811-04, "Commuter Transit Subsidy Benefits Program," to administer the Transit Benefit Program. Information on the Commuter Transit Subsidy Benefits Program can be found at the USDA Work/Life website at <http://www.usda.gov/da/employ/ffwg.htm>. Information includes: DR-4080-811-04, frequently asked questions on the Commuter Transit Subsidy Benefits Program, Pre-Tax Parking Guidelines, Pre-Tax Parking frequently asked questions, and a resource link.

The form AD-1147, "Department of Agriculture Public Transportation Benefit Program Application," form AD-1185, "Department of Agriculture Pre-Tax Parking Application" and the "DOT Transerve Smart Benefits Application" can be found at the website <http://www.usda.gov/da/shmd/wlforms.htm>. Also, there are samples and instructions on how to prepare form AD-1147 on this website.

The second page of form AD-1147 requires the applicant to provide their work schedule information to calculate the commuting costs. The supervisor is required to sign this page to concur with the work schedule provided by the applicant. Employees who work 8 hour days can claim 21 days, 9 hour days can claim 19 days and 10 hour days can claim 17 days per month for commuting benefits. Employees who work part-time or telecommute can only claim the number of days they actually commute to the official duty station. Examples of employees who use mass transit but work less than a 40 hour work week at their official duty station:

Bill Forester telecommutes one day per week and reports to his official duty station for the remainder of the week working 8 hour days. Mr. Forester would be eligible to claim 17 days per month for commuting benefits.

Sally Duffer telecommutes 1 day per week and works 9 hour days. Ms. Duffer would be eligible to claim 15 days per month for commuting benefits.

EXPIRATION DATE:  
March 31, 2007

FILING INSTRUCTIONS:  
Administrative/Other Programs

Fred Apple works part-time and comes to his official duty station 3 days a week. Mr. Apple would be eligible to claim 12 days per month for commuting benefits.

Employees are responsible for reducing the faremedia they receive, during a month or quarter, if they go on temporary travel, vacation, extended sick leave, enter into a temporary telecommuting agreement, are part-time, and etc. In Washington, DC, employees should inform the Department of Transportation (DOT) distributor of the change during faremedia distribution. Field employees should return this faremedia to their local Transit Coordinator for return to DOT for credit to Rural Development. Employees are responsible for submitting a new form AD-1147 if their tour of duty changes.

Employees who retire or change agencies are required to return unused faremedia to their Transit Coordinator for the remainder of the month or quarter that faremedia was issued. If unused faremedia is not available, the employee can provide a check or money order made out to the "U.S. Department of Agriculture" for the unused amount. Employees are only authorized to use the maximum amount of faremedia provided (\$105) or your actual monthly commuting cost, whichever is less per month. Employees must supplement with their personal funds if their monthly commuting costs exceeds the monthly faremedia amount. Faremedia is to be used for commuting to and from your official duty station. Employees are not to sell or give faremedia to others for their use.

If you have any questions, please contact Judy Steer, Transit Coordinator, at (202) 692-0012 or by e-mail at [judy.steer@wdc.usda.gov](mailto:judy.steer@wdc.usda.gov).

March 10, 2006

SUBJECT:        Aggregated Amount Clarification for Personal Telephone Calls  
                     During Official Travel

TO:              All Rural Development Employees

The purpose of this memorandum is to clarify established policy regarding personal telephone calls during official travel. Reference Rural Development Instruction 2036-A, "Travel Regulations and Policies," and the memorandum entitled "Official Telephone Calls Policy," dated November 27, 2002, for guidance (see attached).

The maximum aggregated amount for personal telephone calls that may be claimed on the travel voucher for each travel period (i.e., consecutive days of official travel) cannot exceed an amount equal to \$5 multiplied by the number of lodging nights. The maximum reimbursement for calls made is limited to \$5 per lodging night or the actual amount spent, whichever is less. Charges may not be claimed for calls not made. The amount that can be claimed excludes access charges. Access charges should be listed as a miscellaneous travel expense. The following examples are provided to help clarify this issue:

Example 1: Judy is on official travel for three nights, completes a \$15 personal telephone call the first night and makes no other calls for the duration of her stay. She may complete her travel voucher to reflect a \$5 per night cost for reimbursement of the \$15, because she did not exceed the maximum aggregated amount for the travel period.

Example 2: Tony is on official travel for three nights, completes a \$20 personal telephone call the first night and makes no other calls for the duration of his stay. He may complete his travel voucher to reflect a \$5 per night cost for a \$15 maximum reimbursement, because he has exceeded the maximum aggregated amount for the travel period.

EXPIRATION DATE:  
March 31, 2007

FILING INSTRUCTIONS:  
Administrative/Other Programs

Example 3: Veronica is on official travel for five nights and makes no personal telephone calls during her stay. She cannot claim any amount for reimbursement, because she has not made any calls.

Example 4: Biff is on official travel for four nights, completes a \$4 personal telephone call the second night and makes no other calls for the duration of his stay. He may complete his travel voucher to reflect the \$4 cost for reimbursement.

Personal telephone calls are authorized when an employee travels for more than one night (i.e., two or more nights) on official Government business. The employee may make a brief call to his or her residence or to locations within the local duty station's immediate commuting area to speak to members of the immediate family.

If you have any questions, please contact one of the Travel Unit staff: Veronica Carroll, (202) 692-0229, Irene Wofford, (202) 692-0030, or Tony Pearson, (202) 692-0227. You may also e-mail the Travel Unit mailbox at: [ssd.travel@wdc.usda.gov](mailto:ssd.travel@wdc.usda.gov).

Avenue, SW

Washington, DC  
20250

NOV 27 2002

TO: CFO Council

FROM: Joseph B. Marshall  
Associate Chief Financial Officer for Policy and Planning

SUBJECT: Official Telephone Calls Policy

The Office of the Chief Financial Officer has revised the departmental policy for authorized telephone calls while on travel status. This new policy will be effective December 1, 2002. The revised policy reflects the provisions of the Federal Travel Regulation, Part 301-12, Miscellaneous Expenses, and will be incorporated into the revised Agriculture Travel Regulation, DR 2300-3, Authorized Telephone Calls of a Personal Nature During Official Travel. The attached following plain language question and answer format explains the revised policy.

Should you have further questions, please contact Tawanda M. Smith, Team Leader, at (202) 720-1307 or Deborah Bush-Butler, Travel Policy Coordinator, via email at [dbush-butler@cfo.usda.gov](mailto:dbush-butler@cfo.usda.gov).

CC: Travel Policy Users Group

USDA Revised Telephone Call Policy While On Official Travel

- Question: Will USDA pay for my official calls?
- Answer: Yes, USDA will pay for official calls when authorized by an approving official as a necessary expense related to travel. This includes calls while on temporary duty status and during transfer-of-station travel. Official calls are considered a necessary expense to accomplish the mission of the travel purpose. FTR § 301-12.1
- Question: What telephone service should I use to make an official long distance telephone call while on official travel?
- Answer: If available, employees should use agency provided phone cards or government issued cell phones. In the event that the employee's agency does not provide a phone card or a cell phone, employees should use a government provided telephone system whenever possible. When the government provided services are not available, commercial services may be used. FTR § 301-12.1
- Question: Does USDA allow employees to use an airplane phone?
- Answer: No. FTR § 301-70.301 (c)
- Question: Will USDA pay for personal calls while on official travel?
- Answer: Yes, brief long-distance personal calls are authorized when an employee travels for more than one night; however, you may not exceed the agency daily, authorized reimbursement rate. FTR § 301-70.301 (b)
- Question: Are employees allowed to call daycare providers or non-family members while on official travel?
- Answer: Yes, employees are allowed to call daycare providers or non-family members while on official travel as long as the amount of the telephone call does not exceed the daily maximum allowed for personal phone calls. FTR § 301-70.301 (b)

Question: How much can I be reimbursed for authorized telephone calls of a personal nature using a commercial system?

Answer: If travel is within the 50 states, the District of Columbia, Puerto Rico, or the Virgin Islands, the maximum reimbursement is \$5.00 per day.

If travel is outside of the 50 states, the District of Columbia, Puerto Rico, or the Virgin Islands, the maximum reimbursement is \$15.00 per day.

The maximum aggregated amount that may be approved for each travel period (i.e. consecutive days of official travel) cannot exceed the amount equal to the daily reimbursement rate multiplied by the number of lodging nights. FTR § 301-52.2 (a)(1)

Question: Is it advantageous to use my government issued cell phone for international calls while on official foreign travel?

Answer: Yes. Based on the cost savings associated with long distance rates in cell phone contracts, employees must use the long-distance service, when available, on the government issued cell phone for international calls. FTR § 301-12.1

Question: Are access charges included in the authorized amount for official calls?

Answer: No. The amount excludes any access charges for telephone usage from the hotel. Access charges should be charged as a miscellaneous travel expense. FTR § 301-12.1

Question: Can I receive reimbursement for authorized personal telephone calls on the day of return to my official duty station?

Answer: Yes. Claims will be allowed only for calls placed to the official duty station commuting area on the day of return from official travel for notification of a change in schedule. FTR § 300-3.1

Question: What is considered the official duty station of an employee?

Answer: An employee's official duty station is defined as the area or location of the employee's permanent work assignment. This includes areas of their regular commute or the corporate limits or towns where they are permanently stationed. FTR § 300-3.1

SUBJECT: Fiscal Year 2005 Management Control Review of the  
Section 504 Loan and Grant Program

The purpose of this memorandum is to address the concerns raised as a result of the FY 2005 Management Control Review for the Section 504 Loan and Grant Program. (Attachment 1). The Management Control Review Nationwide Compilation Report for FY 2005 was issued September 22, 2005.

The Section 504 Loan and Grant Programs were reviewed in four States during FY 2005 as part of the management control review process. Also, case files were received and reviewed in six additional States.

EXPIRATION DATE:  
January 31, 2007

FILING INSTRUCTIONS:  
Housing Programs

The Management Control Review was conducted to identify weaknesses and make recommendations for improvements to the Section 504 Loan and Grant Program. State Directors and Single Family Housing Program Directors should immediately review and ensure that Area and Local Office staffs are informed of the contents of this unnumbered letter (UL). For training purposes, Attachment 2 provides “Guidance for Writing 504 Repair Specifications” and examples of specification language for typical Section 504 repairs and Attachment 3 can be used to detail the description of repairs and assist in calculating quantities and cost of materials.

State Offices must plan to conduct Section 504 training no later than December 31, 2006. Section 504 training may be included with other Single Family Housing training. In the interim, we are asking State Offices to prepare State supplements and other appropriate issuance as necessary to ensure proper implementation of the concerns of Attachment I. . Copies of the States’ issuances should be sent to Gloria Denson of the Single Family Housing Direct Loan Division via e-mail @ [gloria.denson@wdc.usda.gov](mailto:gloria.denson@wdc.usda.gov).

If you have any questions regarding this UL, please contact Gloria Denson of the Single Family Housing Direct Loan Division at (202) 720-1487.

Attachments

## **ATTACHMENT 1**

### **CONCERNS OF THE MANAGEMENT CONTROL REVIEW FOR THE SECTION 504 LOAN AND GRANT PROGRAM**

- Once the application is accepted, the Loan Originator is required to record the date the application is received. HB-1-3550, 3.5 clearly states applications must be date stamped when they are received. This date is used to track priority for processing. The Loan Originator must review all applications received within 30 days to determine whether, based on unverified information the applicant appears to be eligible for the program. If a determination of eligibility cannot be made within 30 days after the receipt of a completed application, or there are additional delays in processing an application, the applicant must be notified in writing of the circumstances causing the delay and the approximate time needed to make a decision using the appropriate handbook letters in HB-1-3550. A current copy of the appropriate letter must be placed in the applicant's file.
- When income determinations are made, it is essential that the Loan Originator properly calculate income and considers incomes from the appropriate household members. In most cases, HB 3550-1, Attachment 4-A, which provides a Sample Worksheet for Computing Income can help calculate each type of income manually. The annual income calculation includes incomes from all household members. Adjusted income is calculated by subtracting any deductions that apply to the household from annual income. For repayment income, the Loan Originator must consider only the income of household members who will be a party to the note. The annual, repayment, and or/adjusted incomes must be verified, calculated, and documented properly.
- In determining repayment ability, the Loan Originator must work with the applicant in completing a realistic Budget and/or Financial Statement, which includes all debts as stated on the application, financial statement or credit bureau report. When determining repayment, the budget must consider and account for items such as non-cash benefits, (food stamps, scholarships, free clothing, meal on wheels, free transportation, etc) which help reduce the applicant's budgeted expense.
- We are responsible for working jointly with the applicant/borrower in preparing and/or reviewing the budget in determining repayment ability for a 504 loan/grant. The Loan Official should attempt to reach a consensus on the actual and planned monthly expenses that the applicant/borrower spends or proposes to spend for the next 12 months. If there are disagreements on certain expense items, a thorough discussion should be held and negotiation should occur. If consensus cannot be reached, the Loan Official should thoroughly document the reasons by line item. The applicant should provide written documentation to justify the expense in question. Any deviations or changes in the entries on the budget must be dated and initialed both by the Loan originator and applicant.

Attached is a copy of the official USDA Food Plans that will be helpful in developing realistic food budgets for our applicants. This file may be accessed on the Center for Nutrition Policy and Promotion (CNPP's) home page at: <http://www.cnpp.usda.gov>

- The Loan Originator is required to visit the property within 30 days of the receipt of the completed application to identify which repairs are essential. Photographs are needed of the property and essential repairs to clearly identify health and safety hazards during this initial visit. The Loan Originator is required to provide the applicant with a detailed set of specifications, which will be utilized to solicit at least three

bids when feasible.

Property values should be estimated and there should be documentation as to the method used to arrive at the value of the property. Also, case files should show that the health and safety hazards have been removed or to verify the before and after conditions following the completion of repairs. There should be documentation in the case files to indicate there are a limited number of contractors in the area.

- Acceptable repair bids must include a complete breakdown on materials and labor and describe the quantity, quality, size, grades, styles, and model number to clearly identify the work and materials to be furnished.

Prior to any actual construction, a preconstruction conference must be held with the borrower and contractor to ensure all parties understand what work is to be included in the contract, payments, inspections, warranties and other relevant information.

- In order to ensure that applicants do not receive more than the maximum allowable grant assistance of \$7,500, the Loan Originator must document the amount of any grant provided to each grantee. A list of previous grant recipients is required to be maintained in the operational files and new applicants are checked against this list. In addition, the applicant's social security number on the application must be confirmed to ensure previous grants have not been made using an incorrect social security number.
- Supervised Bank Accounts (SBAs) are used to assure the correct expenditures of all or a part of a loan and grant fund. SBAs are established in accordance with RD Instruction 1902-A, unless proceeds are disbursed to the contractor in full when the work is complete and has been inspected. All SBA accounts must be properly monitored.

Program Directors should ensure that field offices are trained in the correct use of SBAs outlined in the above instruction. There must be a paper trail reflecting all transactions. When one lump sum payment is needed, funds should be obligated, without using a SBA. Checkbooks for SBA must be kept in a secure, locked file cabinet or office safe and a borrower should never sign blank checks.

Funds from leveraged sources should not be commingled with 504 funds. These funds should be tracked separately.

- Grant funds are only available to eligible homeowners age 62 and over for the purpose of removing identified health or safety hazards, or remodeling dwellings to make them accessible to household members with disabilities. Section 504 loan funds are available for repairs to improve or modernize a home, make it safer or more sanitary, or remove health and safety hazards. The identified health and safety hazards should be separated from the loan improvements and other sources of partnerships.

<b>SECTION 504 GRANTS</b>	<b>504 LOANS</b>	<b>PARTNERSHIP/LEVERAGING</b>
<b>Health and Safety Hazards</b>	<b>Repairs for Improvements</b>	<b>Other Sources of Partnership</b>
<b>Unsanitary Plumbing Conditions</b>	<b>Exterior and Interior Painting</b>	<b>Weatherization Programs</b>
<b>Hazardous Electrical</b>	<b>Storm windows</b>	<b>Community Development Block Funds</b>
<b>Sewer Line or Septic Tank Failure</b>	<b>Insulation</b>	<b>HUD's Funds</b>
<b>Unsafe Structural Conditions</b>	<b>Gutters and Downspouts</b>	<b>County and State Agencies</b>
<b>Code Violations</b>	<b>Carpet (only to remove health and safety conditions)</b>	<b>Community Action Groups</b>
<b>Leaking Roofing</b>	<b>Replacement of Sinks, toilets</b>	<b>Non-Profit Organizations</b>
<b>Faulty Heating</b>	<b>Floor covering (replaced with like or similar material)</b>	<b>Churches</b>
<b>Installation of grab bars, railing and other accessibility devices to assist the elderly and disabled</b>	<b>Security doors</b>	<b>Faith-based organizations</b>

- Chapter 12, 12.2 A of the HB-1-3550 handbook lists eligible purposes and restrictions for the use of Section 504 funds. Some examples of eligible purposes are follows:
  - Health and safety violation- foundation, structural, code deficiencies, etc.
  - Major system deficiencies- heating system, electrical, plumbing, etc.
  - Interior and exterior deficiencies- walls, ceiling, soffits, etc.
  - Weather and energy conservation- storm windows and doors, insulation, weather stripping, etc.
  - Roofing, gutters, and downspouts

- Improvements for accessibility to disabled persons- baths for wheelchairs access, installing wider doors, and exterior ramps.

The following are ineligible loan purposes:

<b><u>INELIGIBLE LOAN PURPOSES</u></b>
<b>Changes for aesthetic appeal</b>
<b>Air conditioning (only for medical reasons)</b>
<b>Satellite dish</b>
<b>Ceramic Tile</b>
<b>Carpeting (only to remove health and safety hazard) must be documented</b>
<b>Enlargement of windows such as bay windows</b>
<b>Sidewalk, driveway repairs (only to remove safety hazard) documented</b>
<b>Appliances such as ranges, refrigerators, washers/dryers, trash compactors and other appurtenances are not eligible for our program</b>
<b>Room additions (only for overcrowded conditions) must be documented</b>

To justify the removal of health and safety hazards, the loan official must carefully document the case file to explain the circumstances.

- See HB-1-3550 and DLOS Training Manual. All required forms from UNIFI must be used and maintained properly and timely.

## **GUIDANCE FOR WRITING 504 REPAIR SPECIFICATIONS**

### **Specification Language**

A good repair specification is the key element in preventing misunderstanding between the Agency, applicant and contractor in the Section 504-loan/grant program. Just what are specifications? In very simple terms, specifications are written instructions to the contractor containing information about the equipment, standards, quantity, quality, size, grade, style, model number and workmanship for the repair job. Each item must be described in specific detail to clearly identify the work and materials to be furnished. When there is a difference between the plans and specification, the specifications take precedence. Repair specifications are generally not well understood by the average Section 504 applicant, and often are not given sufficient attention by the contractor.

The specifications are important repair documents for several reasons:

- First, the total cost of the repair work is based upon the quality and workmanship expressed in the specifications. They tell the contractor what is wanted and expected in the repair of the dwelling, and the contractor supplies the cost for producing the desired results.
- Second, the specifications are a record of the type and quality of materials that the contractor is required to use on the job. What is documented in the repair specifications can be the Agency and applicant's protection against substitution of lesser quality materials and equipment.
- Third, the specifications are assurance that all bidders are costing out the dwelling repairs using similar materials, equipment and workmanship. This should reduce the possibility that the "lowest bidder" is planning to use materials, equipment and workmanship that are inferior to those planned by other bidders.

A good Section 504-repair specification is one containing the fewest words that can be used to complete the instruction and make sense. The wording should be complete, clear, concise, correct, and consistent. A clear expression of an idea requires effective language. Clarity is best achieved using the language of everyday conversation.

### **Examples:**

1. In most specifications the imperative mood is preferred:

Contractor shall install lighting fixtures, which will be furnished by owner.

OR

Install light fixtures furnished by owner.

2. Exact meaning of words in specifications is critical. Example: “Any” / “all”. These words have different meanings. “Any”, when used as an adjective, implies a limited number selected at the discretion of the reader. Consider the following with the reader being the contractor.

“Repair any cracks” has one meaning. The contractor may repair any cracks of his choice.

“Repair all cracks” has another meaning. The contractor must repair every crack.

3. **REMOVE & REPLACE:** Although the intent would seem reasonably clear, the words literally require the windows to be removed and same windows to be replaced in the same location.

**POOR:** Remove and replace all windows.

**BETTER:** Remove all windows and replace with new windows of the same dimensions.

4. “The work consists of” should read, “the work includes...”
5. “Provide and install” should read “install” if the material is not in contract.
6. “Either / Or” and “And / Or” should not be used.
7. “Paint either side” should read “paint both sides using brand X paint, color ABC, two coats.
8. Material should always “conform to” and workmanship should always “be in accordance with “requirements.

9 Avoid abbreviations. Use them only when certain that all the readers will understand them. The abbreviations “ft.” and “in.” save only 1 letter if the period is counted. It is better to write the words symbolizing dimensions. When using the symbol for feet and inches, be aware that there is a risk of error resulting from misreading the symbol or in the typing / retyping process.

10. Do not use the expression “etc.”, it is too indefinite for the purpose.

11. Use the term “or equal” with caution.

12. The specifications are direct to the repair contractor; the use of sentences beginning with “the contractor shall”.... is repetitious, unnecessary, and should be avoided. It is never proper to refer to a sub-contractor in a specification.

13. Avoid the verb “is to be.” It lacks command and can lead to ambiguity.

POOR: Adhesive is to be spread with a notched trowel.

BETTER: Spread the adhesive with a notched trowel.

14. Specify stock articles and standard sizes where ever possible.

15. Avoid specifying requirements that will not, or cannot, be enforced.

16. When drawings accompany specifications, use words in the specifications that are identical to those on the drawings. For example, if a joint is noted as sealed on the drawings, do not specify it to be caulked in the specifications. The joint on the drawings should be noted as caulked.

In addition to the repair specification, a warranty covering materials and workmanship for a minimum of one year should be written into each repair contract. Always require product and equipment warranties (or copies) for the file. The name and address of the party who will honor the warranty (contractor, distributor or manufacturer) must be identified.

In writing repair specifications, be thorough and complete; specify everything included in the overall scope of work. A contractor cannot be expected to provide items not specified.

## **EXAMPLES OF SPECIFICATION LANGUAGE FOR TYPICAL SECTION 504 REPAIRS**

**NOTE:** The following are examples of the typical level of detail expected for some common Section 504 repair items. Your specific repair situation may be different in terms of materials, equipment, quality and quantity being specified. Geographical location may also dictate other acceptable and comparable specification language used for typical repairs in your area. However, the following examples demonstrate clear, correct and concise language in giving instructions to potential Section 504 repairs contractors.

### **Roof Covering**

#### **Remove Existing Roofing and Install New**

Remove existing roofing and pile neatly and haul away immediately. Check sheathing and replace as required. Install new 15 pound felt and 235-pound class A labeled fiberglass strip 3 tab self-sealing shingles warranted by the manufacturer for 20 years. Include 100 feet of metal drip edge. Owner to select color.

\$\_\_\_\_\_ for 1064 square feet (11 squares) roofing shingles and 100 feet of metal drip edge.

\$\_\_\_\_\_ for \_\_\_\_\_ square feet of roof sheathing

### **Install Roll Roofing**

Install new 90 pound mineral surfaced roll roofing with 19-inch selvage. Install metal edge strip. Cement all top and end laps.

\$\_\_\_\_\_ for 590 square feet of roll roofing

#### **Install Sheathing**

Install new sheathing. Use new ½ inch C.D.X. plywood or approved equal. Fasten to rafters according to manufacturer's specifications.

\$\_\_\_\_\_ 1654 square feet of sheathing

## **Guttering and Downspouts**

### Guttering

Install new white aluminum seamless or section, K type, joined by connector, installed with slight pitch (approximately 1/16 inch per foot) to downspout, secured with spikes and ferrules at 4 feet centers, and all joints secured with metal screws and caulked.

\$\_\_\_\_\_ 110 linear feet of gutters

### Downspouts

Install new aluminum downspouts with elbows (diverted out) 6 inches above ground level with concrete splash blocks to direct flow away from house. Downspouts shall be secured to siding with metal straps no more than 36 inches apart and all joints and connections secured with metal screws.

\$\_\_\_\_\_ 4 downspouts and 4 splash blocks

## **Doors and Windows**

### Exterior Door Replacement

Replace exterior front and rear doors with new metal clad pre-hung door assemblies. Doors to be same size as existing doors have rigid insulated core, durable magnetic weather-stripping and three butt hinge. Front exterior door, six panel with peephole. Rear exterior door, 9 lite door with insulated glass. Door assembly equal to Stanley or Benchmark. Trim equal to Stanley or Benchmark in quality. Trim interior and exterior doorframes to match existing trim.

\$\_\_\_\_\_ Two exterior doors. (could have cost for each door)

### Locksets

Install new locksets on front and rear exterior door doors, using medium price Schlage or equal. All locks keyed alike.

\$\_\_\_\_\_ Two locksets

## **Replace Existing Windows**

Remove 8 existing wood window assemblies and replace with new vinyl double pane, double hung white or off-white replacement window assemblies, equivalent to Winco, Malta, or Anderson in quality. At least one window in each sleeping room shall have a sill height of not more than 44 inches above the floor and have a net clear opening of 5.7 square feet. The minimum net clear opening height shall be 22 inches. The minimum net clear opening width shall be 20 inches. Windows shall be installed in accordance with manufacturer's instructions.

Windows shall require no painting, be maintenance free, and resist decay

\$\_\_\_\_\_ Remove wood windows and install eight new vinyl replacement windows

## **Mechanical Equipment**

### Install New Water Heater

Remove existing gas water heater and replace with new 40 gallon capacity, automatic, gas fired, fast recovery, vertical storage type water heater. Water heater to be glass lined welded steel with single flue passage, flue baffle and draft hood, thermally insulated with corrosion-resistant steel jacket, baked-on enamel finish, automatic water thermostat and built-in gas pressure regulator, cast iron or steel metal burner, safety pilot and thermocouple.

\$\_\_\_\_\_ Remove existing water heater and install new 40 gallon capacity gas water heater.

### Install New Furnace

Remove existing furnace and install new 225 MBH output (thousand BTU's per hour) 90% plus efficient gas forced air self contained furnace, with electric ignition, packaged, factory assembled, pre-wired unit consisting of cabinet, supply fan, heat exchanger, burner or heater and air filter.

\$\_\_\_\_\_ Install new furnace

## **Electrical**

### Install 100 amp Service

Install new 100 amp. 3 wire service complete with breaker type panel box with all circuits labeled and balanced. Leave provision for 4 or more additional circuits. Provide separate appliance circuit in kitchen and laundry. Square D, Pushmatic or equal. Installation to include disconnecting and disposal of old fuse box. All new materials and installations to meet the (year) edition of the National Electric Code.

\$\_\_\_\_\_ Install new 100 amp. Service

### Replace Lighting Fixture

Remove existing fixture in dining room and replace with new fixture. Check and repair all defective ceiling wiring. \$30.00 fixture allowance. Owner to select style of new fixture.

\$\_\_\_\_\_ Replace lighting fixture

### Smoke Detector

Provide and install one new Honeywell, Nutone, or equivalent 110 volt, smoke detector, with built-in battery back up, on or near ceiling in the bedroom area without disconnect switch, permanently mounted to standard electrical outlet or junction box. Test and certify same.

\$\_\_\_\_\_ Smoke detector

## Thermal and Moisture Protection

### Add insulation

Provide additional fiberglass insulation, or equivalent, to bring total ceiling R-value to a minimum of R-33, including insulation over the access door to the attic. Provide certification of type and R-value. Provide a minimum of 2-inch positive airflow between insulation and underside of roof sheathing in rafter spaces when using loose insulation.

\$\_\_\_\_\_ Add additional insulation

### **Repairs to Foundations:**

Examine the existing conditions under the house and make proper repairs to rotting wood as necessary. Check to verify that all-supporting posts and beams are functioning properly and bear the weight intended.

March 16, 2006

SUBJECT: New Accessibility Standards

TO: Rural Development State Directors

ATTN: Administrative Program Directors  
Civil Rights Managers  
State Architects

The General Services Administration (GSA) has adopted the Architectural Barriers Act Accessibility Standards (ABAAS) as the new accessibility standards for federally **owned or leased** facilities.

Any facility designed, built, or altered **for purchase or lease** by Federal agencies must comply with ABAAS if the design and construction of the new facility or altered areas of existing facilities are entered into after May 8, 2006. Leases entered into after May 8, 2006, must also comply with ABAAS.

Compliance with the Uniform Federal Accessibility Standards (UFAS) and the Americans with Disabilities Act Accessibility Guidelines (ADAAG) will be permitted for construction or alteration of a facility for which plans and specifications were completed or substantially completed on or before May 8, 2006. Facilities leased by the United States Department of Agriculture prior to this date are also required to comply with the UFAS and ADAAG.

The Architectural Barriers Act (ABA) Chapter 1 (Application and Administration), Chapter 2 (Scoping Requirements) and technical guidelines Chapters 3 through 10 can be viewed at <http://www.access-board.gov/ada-aba/index.htm>.

Your office will be notified once the revised Solicitation for Offers is received from the GSA and posted on the Rural Development Leasing Publications page at <http://teamrd.usda.gov/rd/rdstlouis/manuals.htm>.

March 21, 2006

SUBJECT: Mid-Year Performance Reviews

TO: Rural Development State Directors

ATTN: Administrative Program Directors  
Human Resources Managers

The 5-tier Performance Management System rating cycle for Rural Development employees began on October 1, 2005, and ends on **September 30, 2006**. Critical job elements and performance standards should have been communicated to each employee at the beginning of the appraisal period.

A formal progress review must be held at the midpoint of the appraisal cycle. The purpose of a progress review is to advise employees of current performance. It is also used to ensure that critical and non-critical elements and performance standards are appropriate and current. In conducting the mid-year progress review, you should cover the employee's level of performance to date, indicate any changes in critical job elements and/or performance standards, point out problem areas that may affect performance, and inform the employee how to improve performance that is less than fully successful.

Significant changes of an employee's duties and responsibilities may require a change in the job elements and performance standards. If an employee's position has been reclassified and/or upgraded, the performance plan should accurately reflect the critical elements of the position. Therefore, the implementation of new performance plans must be accomplished within 30 days of the notification of the personnel action.

Mid-year performance progress reviews should be conducted no later than **March 31, 2006**. The mid-year review should be recorded in Section 6 on Form AD-435A, Performance Plan, Progress Review and Appraisal Worksheet. A fillable version of Form AD-435A can be located on the web at <http://www.nfc.usda.gov> by selecting "Forms" from the drop-down menu of the "QuickStarts" portion of the webpage.

EXPIRATION DATE:  
September 30, 2006

FILING INSTRUCTIONS:  
Administrative/Other Programs

In fiscal year 2005, the Office of Management and Budget and the Office of Personnel Management's mandate to directly link performance plans to the mission area's strategic goals was expanded to require that all employee performance plans be linked to the organizational goals and be results oriented. If you have not done so already, please make sure that all performance plans conform to this mandate for fiscal year 2006. In order to develop performance plans that align to the organizational goals, you should review Rural Development's Strategic Plan which is located at <http://www.rurdev.usda.gov/rd/strategicplans/index.html>. You should also confer with your respective Administrator as to the specific goals for your mission area.

Developing a results-oriented performance culture is critical to successfully achieving organizational goals and objectives. Performance appraisal programs provide a formal process for communicating goals, individual performance expectations, and accountability for achieving those goals. Accountability has become a very critical part of "getting to green" in the President's Management Agenda.

In the fiscal year 2006 rating cycle, we will be held accountable for mid-year reviews being conducted. Thus, I am requesting that each State Director certify that all their employees have received a mid-year review. We have attached a certification form for your convenience.

If you have any questions or concerns please contact Norma Valdes at (202) 692-0198 or via email at [norma.valdes@wdc.usda.gov](mailto:norma.valdes@wdc.usda.gov).

March 21, 2006

SUBJECT: Approval of State Director Credit Hours

TO: Rural Development State Directors

ATTN: Administrative Program Directors  
Human Resources Managers

This memorandum is in response to a variety of questions received regarding approval of credit hours.

Currently, State Directors are approved to work flexitour schedules which allow you flexibility in determining your starting and stopping times within the flexible hours of 6:30 a.m. to 6:00 p.m., and to choose a thirty, forty-five, or sixty minute lunch period. The flexitour schedule requires you to work eight hours a day, five days a week. Additional information on flexitour work schedules is available in Rural Development Instruction 2051-F, Hours of Duty, which can be found at <http://www.rurdev.usda.gov/regs/regs/doc/2051f.doc>.

A flexitour work schedule enables you to earn credit hours for work you perform in excess of your 8-hour tour of duty. The number of credit hours that may be earned in a workday, plus the number of hours earned during the regular tour of duty, cannot exceed 12 hours. Prior written concurrence is required before earning credit hours. Credit hours cannot be earned for time spent in travel or on non-workdays, such as weekends or holidays. Credit hours can be used in the same manner as annual leave. No more than 24 credit hours can be carried from one pay period to another on your Time and Attendance (T&A) report.

An example of the use of credit hours would be if you plan to attend a business meeting in the evening after your regular work schedule has ended. Permission is sought prior to the meeting to earn 3 credit hours for the meeting. If the meeting only lasts 2 hours, then only 2 hours can be reported on your T&A. However, if you request 3 hours and the meeting takes 4 hours, only the 3 hours approved can be reported on your T&A.

EXPIRATION DATE:  
March 31, 2007

FILING INSTRUCTIONS:  
Administrative/Other Programs

Requests to earn or use credit hours should be submitted on Form SF-71, "Application for Leave," which can be found at [http://www.opm.gov/forms/pdf\\_fill/opm71.pdf](http://www.opm.gov/forms/pdf_fill/opm71.pdf) . Requests should be submitted to Mr. Dorr's office via fax at (202) 720-2080.

If you have any questions or concerns please contact Norma Valdes, Human Resources Specialist, at (202) 692-0198 or via e-mail at [norma.valdes@wdc.usda.gov](mailto:norma.valdes@wdc.usda.gov).

SUBJECT: Results of the 2006 Multi-Family Housing Annual Fair Housing Occupancy Report

We are pleased to present the 2006 Rural Development Multi-Family Housing (MFH) Annual Occupancy Report, including both Rural Rental Housing (RRH) Section 515 and Farm Labor Housing (FLH) Section 514 demographics. These results are based on January 2006 data from the Multi-Family Information System (MFIS).

This Report presents data from the past 3 years, and compares information from year 2004 to year 2006. Attachment A is a summary of Report results. Highlights of this year's data include:

- The total number of rental properties has decreased by 1.3 percent since last year; the number of rental units in the MFH portfolio has decreased by less than 0.4 percent.
- The current population consists of:  
White, Non-Hispanic households: 69.7 percent; Black Non-Hispanic households: 17.5 percent; Hispanic households: 9.2 percent; Multi-racial households: 1.2 percent; American Indian/Alaskan Native households: 1.5 percent; Asian, Pacific Islander households: 0.8 percent.
- Very-low income households represent 93.86 percent of all households and low-income households represent 5.1 percent of the total. These statistics reflect a slight decrease in very-low income households and a small increase in low-income households.
- Average household incomes are up to \$10,036 from \$9,665 (a 3.84 percent increase); the average income of Rental Assistance (RA) households is up to \$7,961 from \$7,601 (a 4.74 percent increase).

EXPIRATION DATE:  
March 31, 2007

FILING INSTRUCTIONS:  
Housing Programs

- Female-headed households continue to represent the majority of households (72.4 percent). There was a slight increase in the percentage of elderly/disabled households vs. non-elderly; and, within the elderly/disabled population, there was a 3.2 percent increase in the percentage of disabled households.
- Overall, as a percentage of all households, since last year, there are: fewer female-headed households, fewer elderly households, and more disabled households.

In comparing the RRH Section 515 portfolio with the FLH Section 514 portfolio, it is interesting to note:

- FLH members per household are about twice the size of the average household in the portfolio. Average farm labor income is almost twice that of the average MFH portfolio household. Farm labor income for RA households, \$12,369, is significantly higher than the average RA income for the portfolio, \$7,961.
- Elderly/disabled households make up 59 percent of the RRH portfolio, but only 13.2 percent of the FLH households. This 13.2 percent is up from 12.4 percent last year.
- RA households make up 61 percent of the RRH portfolio and 57 percent of the FLH households. The FLH number has increased from 55 percent last year.
- White households constitute 71.6 percent of the RRH portfolio, but minorities constitute 92.2 percent of the FLH households. This is a small decline from last year (93 percent) for FLH.

The report shows that we have more households using RA than last year and fewer rent overburdened tenants, demonstrating our work to utilize all available rental assistance units.

We would like to thank you and your staff for helping to make this data project a success for the year 2006.

SUBJECT: Interest Rates for Water and Waste Disposal  
Loans, Watershed Protection and Flood  
Prevention Loans, and Resource Conservation  
and Development Loans

TO: Rural Development State Directors,  
Rural Development Managers,  
and Area Directors

Effective from April 1, 2006, through June 30, 2006, the interest rates for Water and Waste Disposal Loans are as follows:

Poverty Line..unchanged at.....4.500%  
Intermediate..decreased to..... 4.375%  
Market..... decreased to..... 4.375%

Also, the rate for Watershed Protection and Flood Prevention Loans and Resource Conservation and Development Loans is as follows:

CURRENT RATE	NEW RATE
4.500%	4.375%

EXPIRATION DATE:  
June 30, 2006

FILING INSTRUCTIONS:  
Administrative/Other Programs

For this quarter, all loans may be obligated at the lower market rate. Please notify appropriate personnel of these rates.

SUBJECT: Daymax Planners

TO: Rural Development State Directors  
National Office Officials

ATTN: Administrative Program Directors

As a reminder, the General Accountability Office stated that agencies cannot make purchases from non-mandatory sources. Franklin Planners, refills and/or supplies cannot be obtained from a mandatory source. Franklin Planners, refills and/or supplies cannot be purchased even if they are listed on the General Services Administration Schedule, because this is not a mandatory source. Therefore, the purchase of Franklin Planners, refills and/or supplies is improper.

The acceptable alternative to the Franklin Planner is the Daymax Planner. The Daymax Planner, refills and supplies are produced by a Javits Wagner O'Day (JWOD) participating non-profit agency, which is a mandatory source. Employees who want to continue to use the Franklin Planner will have to purchase the Franklin Planners refills and/or supplies with their personal funds.

The Daymax Planner is deemed to meet the needs of the Federal Government. If you have any questions, please contact Milbert Crossland, JWOD Coordinator, Procurement Management Division, at (202) 692-0108 or by e-mail at [milbert.crossland@wdc.usda.gov](mailto:milbert.crossland@wdc.usda.gov).

Administrator  
Housing and Community Facilities Programs

SUBJECT: Preservation Proposals for Equity Funding

The purpose of this Unnumbered Letter (UL) is to announce the availability of up to \$4.3 million of the Section 515 reserve that is made available to fund innovative approaches to preserve rental housing. One example of an innovative approach is providing an equity loan at the time of transfer to a Non-Profit (NP) or public body in exchange for a restrictive-use agreement that assures that the project will remain as affordable housing for its remaining useful life. This UL announces that proposals to use funds should be submitted to the Office of Rental Housing Preservation (ORHP) by May 10, 2006.

States wishing to submit proposals for consideration for funding should submit the attached spreadsheet that provides the following basic project information:

Project Name:		State:	
Borrower ID & Loan #:		Project Type:	
Borrower Name:		RRH/LH	
Project Location:		# Units:	
		# RA Units:	
		# of Sec. 8 Units:	
		Expiration Date of Current Restrictions:	

Your spreadsheet should address the following:

- The anticipated equity loan amount.
- Can the transfer be completed prior to September 1, 2006?
- Is there a potential impact on minorities?
- Is the project needed in the community?
- Will the transfer be to a NP or Limited-Profit (LP) borrower entity?

EXPIRATION DATE:  
December 31, 2006

FILING INSTRUCTIONS:  
Housing Programs

- Is the LP transferee willing to accept a 30-year Restrictive Use Provision (RUP)?
- Is the property currently under a RUP?
  - If so, when will the RUP expire?
- The total number of units in the project.
- Rental Assistance (RA) type (family or elderly).
- The number of RA units available from unused RA in your State that you are willing to commit to the preservation of this project.
- The amount of tax credits or third-party funds that will be committed to the deal.
- Whether the property will require repair or rehabilitation work.
  - If so, what is the amount **AND** where the funds will come from?
  - Specifically, will equity loan funds be used?
- Please delineate between deferred maintenance and normal rehabilitation and repair.
- The per unit value of the repair/rehab.
- The amount of Housing and Community Facilities Programs repair/rehab loan funds.
- The percentage of equity designated to repair/rehab.
- A *brief* description of the proposed transaction, i.e. explain if the equity loan is to be combined with tax credit proceeds or third-party financing for equity, or repair or rehab work.

**The number of unused RA units you are willing to make available to the project being preserved will be the primary criterion for initial selection decisions.**

**To facilitate the preservation of existing MFH projects, the Agency is willing to consider allowing an equity payment to the transferor at the time of a transfer on a case-by-case basis. However, the following conditions must be met:**

1. The appraisal for the equity determination will be an “as-is” unsubsidized value.
2. ORHP must approve the equity payment using the process established on the incentive calculation worksheet. Project rents will not exceed comparable conventional rents.
3. The loan may be up to 100 percent of equity for NP entities that agree to RUPs for the remaining useful life of the project, or LPs that agree to 30-year RUPs.
4. The loan must be made in the best interest of the tenants and Government.

If a subsequent loan is completed as part of the transaction, an appraised value using subsidy and an “as improved” value may be used if appropriate.

We anticipate announcing funding decisions on or about May 19, 2006.

Please direct any questions about this issue to ORHP. You may contact Cynthia Reese-Foxworth, (202) 720-1940, [Cynthia.ReeseFoxworth@wdc.usda.gov](mailto:Cynthia.ReeseFoxworth@wdc.usda.gov).

SUBJECT: Records Management Information

TO: Rural Development State Directors  
Rural Development National Office Officials

ATTN: Administrative Program Directors and  
Management Control Officers

As a result of the Fiscal Year 2004 Management Control Review on Records Management, it was determined that information on records management should be distributed to Rural Development employees in conjunction with the revision of RD Instruction 2033-A, "Records Management in Rural Development Field Offices," RD Instruction 2033-C, "Management of National Office Records," the utilities program's guidance entitled, "Procedure for Records Disposition Authority," RD Instruction 2033-E, "St. Louis, Missouri, Records Management," and the records management functions required by Finance Instruction 315.1. Instructions that are in the revision and/or clearance process will be released upon approval of the retention schedule by the National Archives and Records Administration. The retention schedule will be an exhibit for the revised Instructions.

To comply with the recommendation for information on records management being available to all Rural Development employees, a PowerPoint slide show has been developed and is available on the Rural Development Intranet at <http://teamrd.usda.gov/rd/ssd/recordsmanagement.ppt>.

If you have any questions, please contact Andrea Jenkins, Rural Development Records Officer, at 202-692-0029.

SUBJECT: Intermediary Relending Program  
Second Quarter Funding

TO: State Directors, Rural Development

ATTN: Business Programs Directors

The fiscal year (FY) 2006 second quarter funding selections for the Intermediary Relending Program (IRP) non-earmarked funds are listed below for your information. The priority points for each project are inclusive of any Administrator points that were awarded. The selections are as follows:

State	Project Name	Amount	Priority Points
OR	Lane Council of Governments	\$500,000	175
AR	Southern Financial Partners	\$750,000	161
IA	Southeast Iowa Regional Planning Commission	\$600,000	161
MO	Meramec Regional Planning Commission	\$500,000	158
NH	Capital Regional Development Council	\$750,000	156
WPAC	Pacific Islands Development Bank	\$750,000	156
KY	Appalachian Investment Corporation	\$750,000	149
ID	Eastern Idaho Development Corporation	\$330,000	145
NC	East Carolina Development Company, Inc.	\$750,000	141
<b>Total</b>		<b>\$5,680,000</b>	

EXPIRATION DATE:  
September 30, 2006

FILING INSTRUCTIONS:  
Community/Business Programs

As a result of a 1 percent rescission in the IRP, \$19,924,267.80 is available for the IRP unrestricted reserve for FY 2006. Thirty percent of the unrestricted reserve was available to fund these projects.

Please provide appropriate notification to applicants that did not receive an allocation. Applications that have been considered for an allocation of funds in four quarterly funding cycles will receive no further consideration, in accordance with RD Instruction 4274-D, section 4274.344(b). Applications that have been considered in less than four quarterly funding cycles will be considered again next quarter.

Any revisions in priority scoresheets that are intended for consideration in the funding cycle for the third quarter of FY 2006 must be received in the National Office **by April 28, 2006.**

March 30, 2006

SUBJECT: Rural Economic Development Loan and Grant Program  
Projects Funded for Second Quarter  
Fiscal Year 2006

TO: State Directors, Rural Development

ATTN: Business Programs Directors

The Business Programs has announced loan and grant selections for the second quarter of fiscal year (FY) 2006 under the Rural Economic Development Loan and Grant (REDLG) Program. A listing of loan and grant awards is attached for your information.

During the second quarter of FY 2006, 37 zero-interest loan applications totaling \$17,362,000 were considered by Business Programs. Based on the availability of funds, 14 applications were selected for funding totaling \$7,079,000. These funds will be leveraged by \$115,856,121 of private and public financing and directly create 338 jobs in rural areas and help save 563 existing positions.

In addition to the loan selections, 10 grants totaling \$2,742,360 to finance revolving loan fund programs that will be operated by rural electric utilities were selected for funding. The initial zero-interest loans from the revolving loan fund programs, leveraged by \$11,004,478 in private and public financing, will provide financing for a new fire station, childcare center and develop essential community facilities in rural America. An estimated 145 new jobs will be created and 335 jobs will be saved as a result of these grants.
